

Your creator program, **run** **and growing.**

Sourced, coached, scaled. **You approve, it delivers.**

INVESTOR BRIEF · PRE-SEED · 2026

Jacob Sprake · jacob@sprake.co · sortcreators.com

Running a creator program is all grind, and both sides churn.

THE MANAGER

8 tabs. 150+ outreach DMs a week.

Hours hunting for new creators.

Reconciling payouts by hand.

THE CREATOR

A brief, then weeks of silence.

Vague feedback. Late pay.

No coaching, no path to better.

Incumbents hand you a tool. The grind stays, the program stalls.

Built to run your program, not to be operated by you.

EVERY OTHER TOOL

A form you type into.

Waits for you to act.

You are still the operator.

SORTCREATORS

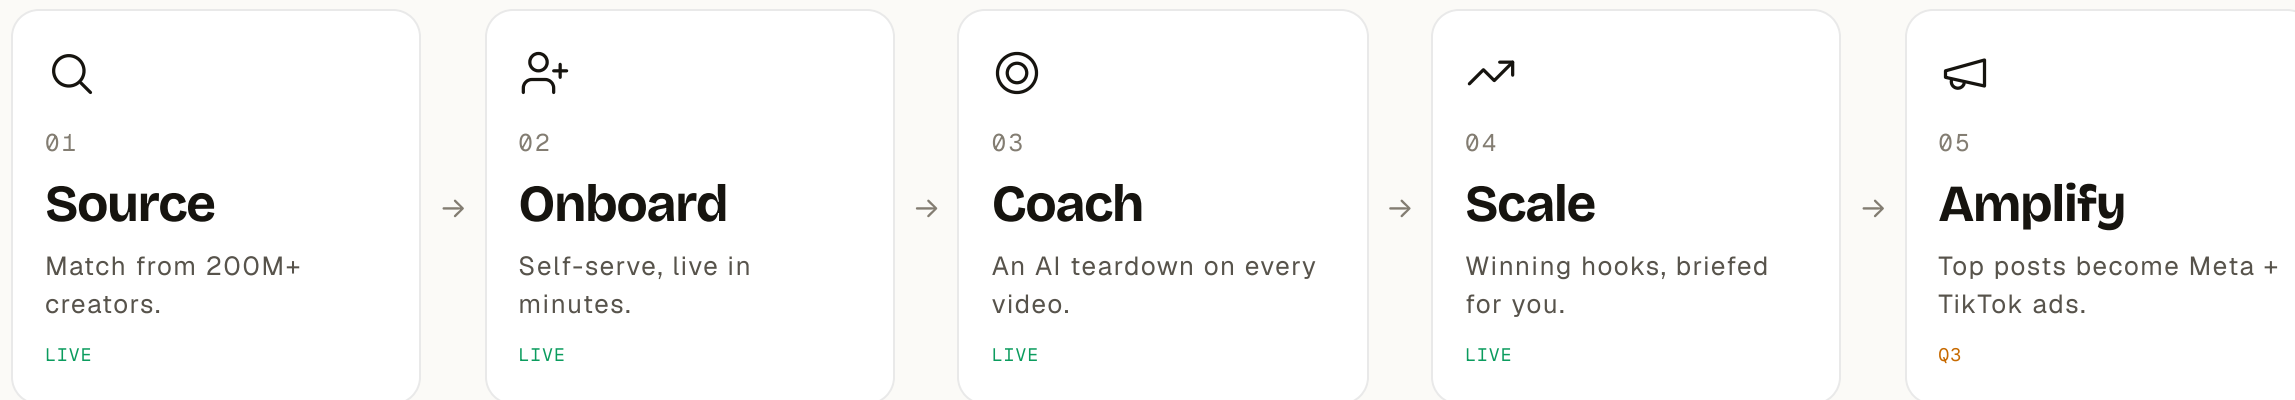

A fleet of agents acts for you.

Typed, approval-gated, MCP-native engine.

It runs. You approve.

So you get a program that runs, not a tool to run.

We run the whole lifecycle. You just approve.

Every step runs for you. Revenue funds the next cohort.

No one is born a creator. We turn them into top performers.

Creators post better, grow faster, and stay.

Because every video gets an AI teardown and a 24/7 coach in their pocket.

Jacob Sprake

FOUNDER · SPR LABS LTD

Ran a marketing & UGC agency since **15**. Three years a **UGC creator**. He has lived both pains and shipped the fix solo.

THE AGENCY SIDE

Ran the roster: the spreadsheets, the chasing, the payouts. The grind SortCreators removes.

THE CREATOR SIDE

Made the content: the silence, the vague feedback, the waiting on pay. The gaps it closes.

Raising a **pre-seed** to turn a shipped product into a category.

One GTM, one engineer.

18 months buys: 100+ paying programs and the revenue a Series A wants. The product is already shipped, so the raise de-risks distribution, not the build.

The operator behind every creator program.
